A BAD APPOINTMENT.

Mr. WM. F. JOHNSTON has been nominated to the Collectorship of Internal Revenue in the Twenty-third District of Pennsylvania, in place of Mr. DAVID N. WHITE. This change was not made because of incompetency or unworthiness in the incumbent. He has performed his duties to the satisfaction both of the government and the people. But Mr. JOHNSTON wanted the place. He has wanted almost all sorts of places for several years, and has been "everything by starts, and nothing long," in the hope of drifting in somewhere. At last he has succeeded. His sole recommendation, in this instance, was a speech made from the steps of the City Hall in Washington, in support of the President's Policy. In reward for this service he has the best appointment in a district of which he is not a resident, and among a people who revolt at this intrusion of him among them.

This appointment may be taken as the first of a series in this portion of the State, entered upon for the purpose of so corrupting the people by a profligate use of governmental patronage as to induce acquiescence in a Policy which is repugnant to their judgments.

GREEN CLAY SMITH'S JOHNSON CLUB have marked five Pennsylvania Congressional Districts in which their energy is to be concentrated in that State, for the purpose of preventing the return of the present Republicans. The Committee have subscribed for several thousand copies of a weekly paper printed in Washington, which they are sending out franked all over these districts, in order to try and get up a third party, or get a number of Republicans to unite with the Democrats. The new federal appointees in this State are expected and will be made to co-operate to this end.

IN THE Republican National Convention of 1864, Andrew Johnson and Daniel S. Dickinson were the contestants for the nomination for Vice President. The New York delegation, inspired by Thurlow Weed, turned the scale in favor of Mr. Johnson. Had Dickinson been taken he would have died fulfilling the office of President, and leaving Mr. Foster, of Connecticut, his successor.

AN ATTEMPT will be made in Congress to compel the National Banks to redeem their issues in New York. The Banks of that city favor the idea; Banks located elsewhere resist it. There are certainly strong points in favor of compelling Banks to take up their circulation as it accumulates in the great financial emporium.

"WHAT Republican will be least offensive to the Democrats?" asked Mr. Cowan recently in casting about for a man to succeed a radical in office. That is what is meant by fighting out the controversy inside the Republican party. It takes little mother wit to see whither that programme leads.

A BILL has passed the Tennessee Legislature, by a very decided vote, disfranchising all men who participated in the rebellion, and prohibiting them from holding office. The men who sustained Mr. Johnson at home during the war, do not agree with him in opinion.

SOUTH CAROLINIANS are throwing out feelers for an arrangement sanctioning the importation of Coolies. They will doubtless wait until the expiration of the Freedmen's Bureau, a year hence, and then count on Democratic aid.

SENATOR MORRILL intends to-day to bring in a bill abolishing the Washington government, and placing the municipal control in the hands of three Commissioners to be appointed by Congress.

MR. MORRILL, in behalf of the Committee of Ways and Means, has given notice to the House that the supplemental tax bill will include Petroleum in the list not taxed.

NEGOTIATIONS have been commenced for a new reciprocity treaty, and for a satisfactory arrangement of the fishery question.

THE PRESIDENT has signed the bill appropriating $800,000 to reimburse Pennsylvania for certain war expenses.

Messrs. Editors:—Your money article, dated the 6th inst., contains some very foolish and unwarrantable remarks. Who wrote the article I know not. In fact I know as little about the writer as he knows about the matter of which he attempted to write.

He may have some little "axe to grind" and wishes to get it sharpened at the public expense. In fact, Messrs. Editors, the article smacks more of a two-penny Broker Shop than of an editorial room, and I must say that I am surprised at admitting such stuff into the columns of a respectable newspaper—indeed I doubt much whether it ever would have appeared in the Gazette, had you glanced over it before it was sent to the compositor.

The writer of the article referred to draws a comparison between the financial ability displayed by the Finance Committee of the Pittsburgh and Allegheny, and he contrasts the latter with fulsome praise and the former with censure. He tells, however, to inform his readers that the *City of Pittsburgh* has issued one hundred and eighty-six *thousand dollars* of bonds and *Allegheny City only four hundred and seventy dollars*. He also fails to state that Allegheny City subscribed to the stock of only one railroad, which stock, at the time her bonds were being compromised, was selling *at thirty to forty per cent. discount!* What, then, would the Pittsburgh City have been selling the stock, paying her bondholders seventy cents dollar, and getting but two hundred thousand dollars? Why, the difference, which would be sold in any commercial community at over ten per cent. of its cost, and a very large proportion of her stockholding citizens would gladly avail themselves of the opportunity to sell out. That, therefore, is the attempt to draw any comparison between these two cities, so far as the management of their finances is concerned. Pittsburgh and Allegheny city have managed almost all her railroad bonds satisfactorily, and Pittsburgh is pretty nearly up with her.

COUNCILMAN.

(Our correspondent does no but justice in saying that had we seen the paragraph in question it should not have been inserted. Such things creep in unawares, in spite of the closest watching. Pittsburgh has done so remarkably well in arresting her railroad indebtedness, that she is entitled to praise instead of censure. Considering the obstacles she had to overcome, and the immense amount of personal labor involved in overcoming them, the wonder is that she has been able to do so well.—EDS. GAZ.]

Recent Mexican Advices.

NEW ORLEANS, April 14.—The Steamship *Pizarro*, from Matamoras on the 6th, has arrived.

The *Ranchero* says Jesuing Reos, with an Imperial column sixteen hundred strong, left Cadereita on the last of February.

Quite a number of suspicious characters had taken places about the neutral ground with a view to attending the contests of those millions, reported coming on the Monday Next.

A General Gomez, to whom Mendez willed his command, died dying, has been arrested for conspiracy, and released by Canales on condition that he leaves the country. Gomez is now in Brownsville.

The *Texas Republic* correspondent says the Liberals in Nuevo Leon and Mexico are daily gaining strength, and that Escobedo has now a force of 12,000 men. Lerdo is thousand strong, well disciplined and in good condition. Both armies are waiting for the weather to get dry enough to move. Reports from the interior in connection with Bagdad are very favorable.

The *Texas Republic*, April 1st, receives advices from Matamoras to the 25th ult. The most important item is the capture of Monterey by the Liberals. The capture is a complete surprise. The Imperialists had received large reinforcements, and were preparing to attack the Liberals in their position at Marin, and their defeat was looked for by the Imperialists. The Liberals, however, attacked the Imperialists in the rear, and the latter, panic stricken, fled in confusion, leaving the Liberals in possession of the field, and their entire camp equipage, artillery, &c. The Liberals pursued the Imperialists to Monterey, and the latter, on the approach of the Liberals, evacuated the city, and fled in the direction of Saltillo. The Liberals entered the city on the 23d ult., and were received with great enthusiasm by the people. The Liberals are in possession of the whole of the State of Nuevo Leon, with the exception of Cadereita, which is still held by the Imperialists.

VOLUME LXXX.---NO. 89. PITTSBURGH, MONDAY, APRIL 16, 1866. PRICE THREE CENTS.

CITY ITEMS.

Malaria Everywhere.

Rarely has there been a season as fruitful as this of malarious diseases. Not only on the prairies and in the valleys of the West, not merely in all the old haunts of Fever and Ague and Bilious Remittent Fever have these prostrating diseases been unusually virulent, but they have extended to towns and cities never before infested with them, and have even ascended the mountains and attacked thousands of people supposed to have been placed by the laws of Nature above their reach. Hence we are compelled to admit that a fatal element pervades the Universal Air this season, and should at once resort to the only approved preventative of its consequences, Hostetter's Stomach Bitters—a tonic so potent, an anti-septic so perfect, an alterative so irresistible, and a stimulant so pure, that it enables the human system to resist and baffle all the predisposing causes of disease. With the confidence that one clothed in incombustible garments might move among blazing buildings the man who arms himself against malaria with this powerful *defensive medicine* may walk a fever-scourged district fearless of its insalubrious atmosphere. The intermittents and remittents at present so general in all parts of the country may be but the forerunners of a deadlier scourge now on its way westward from the far East. Prepare the system with Hostetter's Bitters for a successful battle with the zephitic causes of *all epidemics*. Be wise in time. Sold everywhere.—*New York World, May 6, 1865.*

Hostetter's Bitters

Are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No. 64 Market street, corner of the Diamond and Fourth street.

FROM WASHINGTON.

Reopening Mississippi Postoffices.

BILLS APPROVED BY THE PRESIDENT.

Contracts with Freedmen.

NEW RECIPROCITY TREATY.

&c., &c., &c.

WASHINGTON, April 14.—A large number of post offices in Mississippi were yesterday ordered to be immediately re-opened.

The President has approved the joint resolution providing that the true intent and meaning of the words "or in the line of duty," used in the fourth section of the act approved March 3d, 1865, entitled an act to amend the several acts heretofore passed to provide for the enrolling and calling out of the national forces and for other purposes, requires that the benefit of the provision of said section shall be extended to any enlisted man or officer person entitled by law to bounty, who has been or may be discharged by reason of a wound received while actually in service under military orders, not at the time on furlough or leave of absence, nor engaged in any unlawful or unauthorized act or pursuit. The President has also approved of the bill appropriating $600,000 to reimburse the State of Pennsylvania for the money expended for the payment of the militia in the service of the United States.

Communications to the Assistant Commissioner of the Freedmen's Bureau in this district, continue to arrive, requesting him to aid the writers in making contracts with the freed people who have assembled in Washington and its vicinity, to labor on farms and plantations in the south and south-west. The efforts of the Assistant Commissioner to satisfy these demands for labor have been eminently successful, although the demand is yet largely in excess of the supply. Yesterday upwards of four hundred freed people, living in and near Alexandria, Va., were engaged by contracts through the instrumentality of the Bureau, to go to distant points.

The Government is prepared to punish any infractions of the law, committed by Fenians, but sees no cause as yet for interference.

Negotiations have been commenced for a new reciprocity treaty, and for a satisfactory arrangement of the fishery question.

Dr. Waspence, who was surgeon of the post hospital at Richmond during the rebellion, states, in reply to an inquiry made by the government authorities, that he had induced undertakers to keep a record of all the federal soldiers that were buried there, and to mark their graves, but the satisfactory evidence furnished by the destruction of the records in the great fire that occurred on the evacuation of the city.

The work of dismantling forts Stanton, Carroll, Slocum, Lincoln, Totten, Stevens, Reno and Sumner, was completed yesterday, and the ordnance stores were turned over to the proper authorities. The buildings will be sold at auction, and the land transferred to its owners.

WASHINGTON, April 14.—The Supreme Court of the United States, having decided the Indiana Military Commission for the trial of civilians to be illegal, and persons convicted by it having in consequence been discharged, the President would think that steps should be taken to procure the release of Dr. Mudd, Arnold, O'Laughlin and Spangler, convicted of conspiracy against the life of President Lincoln.

THE FENIAN MOVEMENTS.

Mutiny on a British Man-of-War.

FIGHT WITH ENGLISH SOLDIERS

FENIANS STILL ARRIVING.

NEW YORK, April 14.—The *Herald's* Eastport (Me.) special says: The British man-of-war Pylades went to sea very suddenly yesterday afternoon. It is said that fifty of the crew had mutinied and were put in irons, hence the departure of the vessel. The men of other vessels had been tampered with, and similar difficulties are expected.

Yesterday a party of English soldiers crossed from St. Stephens to Calais, where they got into a dispute with some Fenians, when a fight ensued, which resulted in their being driven back over the bridge which runs over the river between the two towns, one soldier being lost. The citizens joined with the Fenians in the fight.

The steamer from Boston this morning brought about two hundred more Fenians, a large number have also just arrived in the steamer from New York.

The *Herald's* Toronto special says: It is now thought that Murphy and his staff will be tried under the alien bill, which was passed after the rebel St. Alban's raid had been committed. This bill gives power to incarcerate a man on suspicion of plotting against a friendly State, and of retaining him against the demands of the habeas corpus. The press and public were excluded from the trial on Wednesday, which fact is creating indignation among even the loyal Canadians.

The following is an extract from a letter dated Eastport, Maine, April 16th:

Colonel Kerrigan with two aids arrived here last Friday. The excitement then commenced and has continued to increase. They spent Saturday in making arrangements at the Passenger Depot to receive the Fenians. On Sunday they seemed anxious to obtain news by telegraph but received none. Monday they spent in endeavoring to obtain arms, visiting several gun and pistol stores, enquiring the price of five hundred muskets, five hundred caps, &c., which caused great excitement here. Among our provincial neighbors all business is suspended. Protective laws is dormant. All the citizens are enrolled as soldiers and drilled four hours daily, and the people are selling off their property rapidly. All are devoting over to our side. This morning one hundred or more Fenians arrived in the boat from Portland. The leaders upon their arrival here were much displeased at the reception sentiment which had been gotten up. They called a secret meeting and are to hold another tomorrow morning. Our County Sheriff tells me they think of going into some of our back towns to await further developments.

TORONTO, C. W. April 14.—The man arrested at Cornwall yesterday turns out to be a person named Wheeler, an ex-Confederate officer and now a Lieut. Colonel in the Fenian army. On being searched his commission was found upon him and authority given by General Sweeney to recruit a Fenian battalion in Canada. Several other interesting documents were found upon him.

NEW YORK, April 14.—The *Herald's* Portland dispatch states that all was quiet last evening. The one hundred cases of guns refused carriage by the Steamship Company on Thursday were shipped on the Eastport boat. Preparations have been made for the reception of four hundred and fifty Fenians who left Boston yesterday afternoon.

Case of Jeff. Davis—Internal Revenue Taxes—Meeting of the Reconstruction Committee.

NEW YORK, April 14.—The *Tribune's* special says the sub-committee of the House Judiciary Committee met yesterday to consider the case of Jeff. Davis. They have not yet received any of the evidence from the Bureau of Military Justice.

A Washington dispatch says that blanks for the collection of the internal revenue taxes for the present year are now being printed and distributed to Assessors as rapidly as possible. The Assessors are directed by Commissioner Rollins to commence the annual assessment as soon as they receive them.

The Reconstruction Committee had another meeting yesterday, and agreed to report another lot of testimony on Monday next. There are about twenty witnesses, whose testimony is quite voluminous. Governor Pierpoint, recent Provisional Governors Sharkey and Johnson, and among the military officers is an affidavit from General Sheridan. Sheridan's testimony alone is about four columns in length.

Anniversary Observances.

WASHINGTON, April 14.—The Departments and many stores in the city are closed to-day, in commemoration of the death of Mr. Lincoln.

NEW YORK, April 14.—The Government offices in this city are closed to-day, and flags at half mast, out of respect to the memory of the late President Lincoln.

ALBANY, April 14.—The Assembly and Senate adjourned to-day, in commemoration of the anniversary of the death of President Lincoln.

SAN FRANCISCO, April 14.—The flags to-day are at half mast in memory of the death of President Lincoln.

NEW YORK, April 15.—There are commemorative services on the anniversary of the death of President Lincoln in all the principal churches in the city. The American colors were flying at half mast on all the public buildings and shipping in the harbor.

The anniversary of the raising of the Union flag on Fort Sumpter was celebrated last night by the Sumter Club of Brooklyn, in an appropriate reunion.

Court Martial.

LOUISVILLE, April 15.—To-morrow a military court martial assembles to investigate the frauds in the Quartermaster's Department during the war. Brig. Gen. A. C. Gillem, President; Capt. S. P. Vare, Judge Advocate, assisted by Lieut. Col. W. H. Coyle, Judge Advocate of the Department of Kentucky. Meary Rumer's case is to be tried first. Major-M. C. Blakeman is counsel for the defence. An order from the Secretary of War says to retain in service all officers volunteering this court martial, notwithstanding the muster out of their regiments.

From Halifax—Abatement of the Cholera.

HALIFAX, N. S., April 14.—There is a difference among medical men as to the disease in question, though the majority call it cholera. Deaths and sick greatly reduced to-day. The disease is decidedly checked and confined to the low-lying districts.

The confederation scheme is being debated in Parliament to-day.

Seizure of Salt Works.

BOSTON, April 14.—A special dispatch from Washington, D. C., says that the city authorities of Pensacola have seized the salt works of the United States Circuit Court, at its next month, and the trial of Jeff Davis is expected to commence about the middle of May. Davis may be expected within two months.

NEW YORK, April 14.—The City of Cork brings Cork papers of the 2d, which contain some little news.

The Paris *Constitutional* of the 31st says the position of France on the German question is that of neutrality, but whatever may happen, France will not be found unprepared.

A Paris telegram says that political telegrams from Berlin and Vienna, it is believed, have been stopped by the Government.

The French Envoy is said to have told the King of Prussia that France considered peace a necessity for Europe, and if war should break out, France certainly would not be on the enrolling and calling out of the national forces and for other purposes, requires that the benefit of the provision of said section shall be extended to any enlisted man or officer person entitled by law to bounty, who has been or may be discharged by reason of a wound received while actually in service under military orders, not at the time on furlough or leave of absence, nor engaged in any unlawful or unauthorized act or pursuit. The President has also approved of the bill appropriating $600,000 to reimburse the State of Pennsylvania for the money expended for the payment of the militia in the service of the United States.

La France, in an article pointing out the preparations of Austria, says: Everything is being organized with a view to the eventualities of war. Gen. Benedict will command the army of the North and Gen. Von Goblins the advance guard.

The *Independance Belge* has a dispatch from Berlin stating that Bavaria, Hesse and Saxony have formed a league in order to bring the Austria-Prussian question before the Diet at Brest.

A telegram says the editors publish no information regarding the military movements now taking place at Berlin.

The evening papers of the 31st give a list of the fortresses ordered to be armed, and state that there will soon be seventy or eighty regiments of full strength, the reserve, four new regiments of guards, and the infantry regiments of the third army corps to be called out. None of the substitutes or reserves of this or the other corps are to be released from the military service at present.

NEW YORK, April 15.—The Saxonica, from Hamburgh, via Southampton on the 4th inst., has arrived.

The United States frigate Canandaigua was daily expected at Southampton.

A royal autograph letter has been sent to George Peabody. The Queen hearing that Peabody was about to leave for America, has written him how deeply she appreciates the more than princely munificence by which he has sought to relieve the London poor. A baronetcy would have been conferred on him, but he felt debarred from accepting that distinction. The Queen presents him her miniature as a testimonial of personal feeling.

The *Times'* City article says: English funds advanced in consequence of the less threatening character of accounts from Germany, coupled with a rumor of the mediation of the Duke Coburg.

The anticipation of a war between Austria and Prussia made the most unfavorable impression on commercial affairs throughout France. The anxiety, instead of being dispelled by an elaborate article in the *Constitutional*, said to have emanated from the foreign office, does not decrease. It is thought that if these powers go to war, France cannot, even if she would, maintain neutrality.

The official *Gazette* publishes the contract as having been concluded between Portugal, France, Brazil and Italy for a telegraph to America.

AUSTRIA AND PRUSSIA.—A Prussian note to the minister at Saxon State says that Austria, without any provocation on the part of Prussia, has ordered an armament of a threatening character, which compels Prussia to arm also. Prussia now seeks guarantees for her security, having understood to obtain them in an alliance with Austria. Von Bismarck asks the support of the minor German States in the event of being attacked by Austria or being compelled to make war. The Vienna Journals predict war as inevitable.

The Austrian Embassador at Berlin has presented a dispatch declaring that the designs of Austria were peaceful; that its military preparations were made with no hostile disposition, and that the Imperial Government was firmly determined, in all circumstances, to abide by its duty to that of Prussia under the federal compact.

A Berlin telegram says: It is believed that in reply to a dispatch of the Austrian Ambassador, Prussia will state that she also has no intention of following an aggressive policy, but would desire an explanation respecting the armaments of Austria.

A telegram from Vienna on the 4th, says rumors of a peaceful solution of the Schleswig-Holstein question were current, and produced a most favorable impression.

A Vienna letter says such an arrangement has been made, that Austria could mobilize forty-eight thousand troops within a fortnight. Austria has prohibited the exportation of horses.

Shanghai advices to March 9th, state that the Imperialists gained a complete victory over the rebels in the north. Fifty thousand of the latter are said to have been slaughtered or captured.

The Late Hon. D. S. Dickinson—Closing Obsequies.

NEW YORK, April 14.—The remains of the late Hon. Daniel S. Dickinson arrived here to-day. A Committee of citizens met the funeral party at Susquehanna, and accompanied it to Binghampton. The train was draped in mourning, and approached the depot in perfect silence. An assembled thousands uncovering their heads as it approached, in veneration for the departed statesman, their friend and neighbor. All business was suspended, and public buildings and private dwellings were draped in mourning. The funeral will take place to-morrow at 3 p. m.

BINGHAMTON, N. Y., April 15.—The closing obsequies of the late Daniel S. Dickinson were concluded here this afternoon. The distinguished statesman was buried in accordance with the rules of the Episcopal church. The funeral took place from the house of the deceased to the "Stone Church," and was witnessed by upwards of six thousand people. The funeral cortege was composed of many distinguished and prominent gentlemen from all sections of the country, Governors of States, Binghampton bar, the village authorities, the Masonic fraternity, and the firemen, were in attendance. Special trains were run on both the Erie and Lackawanna Railroads on account of the relatives and friends of the deceased. The body of the lamented Dickinson was deposited in a quiet little cemetery on the outskirts of the village, known as Spring Grove.

From New Orleans.

NEW ORLEANS, April 14.—Gen. Harry T. Hays who commanded the Louisiana brigade under Stonewall Jackson, has been nominated for sheriff.

The Methodist Conference accepted a report extending the jurisdiction of the Southern church in every direction asked for. The Committee on Episcopals reported, advising the colleagues of bishops to appoint one of their number to reside in California. It also recommends the election of six additional bishops. The bishops, veto was again discussed.

The Louisiana crops are advancing rapidly. The recent frost in Baton Rouge parishes has killed the cotton.

The steamer has arrived.

Houston (Texas) papers say that Quantrell passed through Texas for Mexico. The Texans are bringing cotton from four hundred miles up the Trinity river.

CITY AND SUBURBAN.

Accident on the Pittsburgh, Fort Wayne and Chicago Railroad—Engineer Killed—Narrow Escape of the Fireman.

An accident of a serious character occurred about noon yesterday at the point where the Pittsburgh, Fort Wayne and Chicago railroad crosses Anderson street, in Allegheny, by which the engineer, Mr. Robert Andrews, of Manchester, was instantly killed. It seems that some cars loaded with live stock were being conveyed to the East Liberty cattle yards, the tender being in front of the locomotive. When the train neared Anderson street three cows were seen on the track, two of which obeyed the signal and left the track, but the third did not and was struck by the tender and dragged some yards. Before the speed of the locomotive could be stopped the tender was on the trestle work, some of the cross-ties of which were torn loose by the body of the cow under it. This threw the tender off the track, and strange to say completely reversed it. The locomotive dashed on a few yards farther, and then it too left the track and was only stopped by the wheels embedding themselves deep in the soft earth. The crossties which threw the tender off the track also tore up the one on which the engineer was standing, causing him to fall through, one of the wheels passing over his left leg just above the knee. He was also badly bruised on other parts of his body, and survived but a few minutes after the accident. The fireman was throwing coal at the cow at the time, and seeing his danger, sprung on top of the locomotive and thus saved his life.

No injury was sustained to the cars containing the stock. The tender was got on the track during the afternoon, but the locomotive was fast aground on the side of the road, but even it was not seriously damaged. The stock cars were all taken to their destination yesterday. When we visited the scene of the disaster hundreds of people were there, and many were the conflicting stories as to the cause of the accident, but as Coroner Clawson has empanelled a jury which, after a brief session, adjourned to meet again on Tuesday evening, when all the facts will be made known, we shall not allude to them.

The deceased was a most estimable man. He was about thirty-eight years of age, and resided in Manchester, where he leaves a wife and three children.

Departure of Jimmy Hamill.

James Hamill, the champion oarsman, took his departure from the Smoky City on Saturday afternoon for New York, where previous to his departure for England to engage in the international sculling match with Kelly, he will remain a few days for the purpose of testing the comparative merits of the "shells" which have been constructed for him there, and in making choice of the one in which he will row for the championship. The employees of the Adams Express Company have tendered him the present of a beautiful silk flag, which he will take home with him as a stern of his scull during the aquatic contest. It will not be seen by his competitors during the race unless he chances to turn his head. Hamill is accompanied on his trip across the sea by his brother John, and James Laughlin. The Fire Department, headed by its efficient Chief Engineer, John Hamill, turned out in large numbers as an escort to the train, the steamers, and a band of music accompanied the procession. The aquatic world will doubtless be on the tip-toe of expectation to hear the result of the great contest, and to shake hands with "Jimmy" on his return, which we think, we opine, be little less eager than the sporting fraternity to throw up their caps for the favorite. By dint of much practice with the oars and dumb-bells, Hamill has acquired a powerfully knit frame, the acme of strength and vigor, and should he lose the race it will not be owing to any physical shortcoming. He carries with him the wishes of all lovers of manly exercise, which coupled with vigorous sinews and a self-reliant spirit, are as a tower of strength. He was initiated this evening into the mysteries of Masonry, and is expected to hail him on his return from "perfide England," as the victor in this, as he has been in all previous sculling matches in which he has engaged, and as the acknowledged aquatic champion of the world.

Report of Viewers Sustained.

Some weeks ago we noticed the argument of of counsel in the matter of setting aside the report of the viewers appointed to assess the damages sustained to the First German Lutheran church edifice, corner of Wylie and High streets, by the construction of the tunnel by the Pittsburgh and Connellsville Railroad Company. The viewers, in their report, awarded the property to the Railroad Company, and assessed the damages at forty thousand three hundred and fifty dollars. This award was objected to by the Railroad Company, and a bill of exceptions thereto filed by John P. Hampton, Esq. The motion was argued at length by Mr. Hampton, on behalf of the company, and by Major A. M. Brown, for the congregation. The Court then took possession of the papers, and in the absence decivered an opinion sustaining the report entire and overruling the motion to have it set aside. the case will be taken to the Supreme Court.

Needs Repairing.

The condition of Penn street from St. Clair to the Monongahela river is in about the worst condition we have ever seen a street in any city, and the portion of the street in the vicinity mentioned is cut into the most frightful chasms, ruts and gullies, the boulders in many places having been torn up, displaced or carried off. This is one of the principal thoroughfares of the city, and much heavy hauling is done on the lower part of it, to and from Duquesne depot and the great number of foundries, engine building shops and manufactories centering about the Point. The entire street, from St. Clair to the river, should be repaired, as in many places the gutters are sunken in and do not carry off the water, which is allowed to stagnate and rot, much to the detriment of the sanitary condition of that part of town. We hope those having authority in this matter will endeavor to remedy the evil.

Closing Exercises of the Western Theological Seminary.

The closing exercises of of this institution, located in Allegheny, will occupy a portion of the present week, the examinations commencing this morning at ten o'clock. On Tuesday morning, at half-past seven o'clock, in the First Presbyterian Church, Allegheny, Rev. Jonathan Edwards, D. D., President of Washington and Jefferson College, will deliver the address before the Society of Inquiry. At ten o'clock Wednesday morning the addresses to the graduating class will be delivered. In the evening, commencing at half-past seven o'clock, brief addresses by members of the Senior Class will be delivered in the Second Presbyterian Church, this city, and also the valedictory by one of their number, after which the diplomas will be distributed by the Faculty.

Mass Meeting of Wool Growers.

Arrangements have been made for a mass meeting of the Wool Growers of Western Pennsylvania, West Virginia, and Eastern Ohio, at Steubenville, on Wednesday, April 25, at 1 P. M. Among the speakers who have been invited are the following: Hon. Lee Moyne, of Washington, Pa., President of the Pennsylvania State Wool Growers Association; Hon. R. M. Montgomery, of Youngstown, O., President of the Ohio State Wool Growers Association; Thomas Sweeny, President of the Western Virginia Wool Growers Association; Col. S. D. Harris, editor of the *Ohio Farmer*, Cleveland, and J. H. Estep, Esq., of Celiz. Topics of general concern will be brought up at the meeting, and from the well-known character and experiences of the speakers we have no doubt the discussions will be interesting and instructive to wool producers.

Serious Accident.

An accident which resulted in the death of a boy named Wm. H. Moon, occurred at Laughlin & Co.'s works on Saturday afternoon. It appears that the firm were having some repairs made to one of the boilers, which was being done under the superintendance of Mr. Barnhill. The boy Moon was in the boiler doing some "patching," when by some means the steam in the boiler, which was being used to run the machinery, was turned, and before the lad could get out he was so badly scalded that death ensued yesterday about noon. The boy was thirteen years old, of age and had been in Mr. Barnhill's employ for some time. Coroner Clawson summoned a jury, which will assess this evening for the purpose of inquiring into the facts connected with the unfortunate affair.

Soldiers' Reunion Meeting.

The discharged soldiers of Pittsburgh and vicinity held a meeting on Saturday night, at the School House, and were addressed by Generals Pierce, Collier and Barnes, of this city, who alluded, in the course of their remarks, to the assassination of our late lamented president one year ago. The Chairman of the Committee on Constitution and By-Laws made a report, which was adopted with amendments. A committee, consisting of Messrs. S. H. Hulbert, S. A. Leshe and Robert Crawford, was appointed to procure a book to take the names of those charged soldiers desirous of joining the League. A vote of thanks was tendered to the Pittsburghers visiting the League, when the meeting adjourned to convene at the same place May 30th.

New Church Building.

The North Avenue Methodist Episcopal congregation have completed the erection of a temporary building, which is to serve as a church, the edifice now under process of erection by them is finished. Services were held by the church last Sabbath, conducted in the morning by the pastor, Rev. Isaac Allen; in the afternoon, by Rev. Dr. Holmes, of Smithfield M. E. Church, and in the evening by Rev. I. C. Pershing. The present structure is fitted up in a very neat manner, and will serve the church until it accommodates the congregation until the fall, by which time it is expected the lecture room of the new edifice will be ready for occupancy.

Something New.

The attention of our lady readers is invited to the announcement in our advertising columns of the grand opening of a new cloak house, at 49 Fifth street, by Mr. Robb, of merit. The stock of cloaks, mantillas, cloakings, black silks, trimmings, &c., to be exhibited comprises the finest and most desirable patterns and styles, which are offered at the lowest prices. The firm will bestow particular attention to the manufacture of cloaks and mantillas to order, and for this purpose have secured the services of an experienced dress and cloak maker from the East. They also engage the knitting and trimming of garments into the latest styles.

Change of Landlady.

A young man named Henry Sydcok on Saturday evening charged before Mayor McClarthy, on oath of Barney Gipson, with the larceny of some clothing and other articles. The parties had been together on the steamer Ben

MR. THOMAS COSTAMAGNA is no longer Business Manager of the GAZETTE. For the present, business matters are exclusively under the direction of Col. RUSSELL ERRETT.

THE CANVASS.

Without presuming to set our judgment above that of the gentlemen appointed by the recent Republican State Convention to conduct the canvass for the election of Gen. GEARY to the Governorship, we venture to drop a few suggestions for their consideration.

For a few weeks the people of this Commonwealth are likely to enjoy comparative exemption from excitement. This season is pre-eminently favorable to the dispassionate examination of public questions. It seems to us wise for the State Committee promptly to organize, and enter efficiently on the work of presenting the matters at issue to the minds of the voters. Multitudes are now in an attitude to weigh facts and arguments impartially who will be swept along, when political excitement rises to fever heat, by the force of party associations and habits. While public gatherings for oral discussions are not yet in order, the wide dissemination of printed matter, not appealing to passion and prejudice, but fairly setting forth essential truths, would be of great utility.

The present quietude will probably be followed by a season of pestilence. At least such is the prevalent expectation. A dark spot already appears on the eastern horizon, which past experience warrants us in inferring will, in the course of a few weeks, cover the land with darkness and mourning. Such a season of gloom, if it shall actually fall upon the people, will be most unpropitious for all forms of discussion upon general topics. All thought, and all power of thinking, will be absorbed by that which shall be immediate.

How long this season, if it shall really come, will last; how wide a range of territory its inflictions will cover; and what degree of severity will attend its progress, it is useless to speculate. In such cases the highest wisdom and the surest protection is for each man to possess his own soul in patience.

But, in view of probabilities, we urge the State Committee to enter upon its duties actively without delay, and to prosecute them earnestly while there is opportunity. Much always depends on a gubernatorial election; but this year considerations of special interest and magnitude are manifestly involved in the result. Under existing circumstances, apathy will almost amount to the proportions of a crime.

A FENIAN RAID.

What a good many sober-minded people thought would never occur, has actually happened. One wing of the Fenian organization is making a demonstration against the British North American Provinces. At this distance, and under the conflicting accounts forwarded by different parties from the scene of operations, it is difficult to form a satisfactory judgment of the dimensions of the movement. The indications are that the numbers so far congregated do not exceed a few hundred, and this view receives confirmation from the fact that the Government at Washington was not called upon to take special measures to enforce neutrality and protect the interests of our own people; unless, indeed, the gun-boats ostensibly ordered to the fishing banks are actually designed to keep watch along our own coast to prevent violations of the laws. The British Minister to this country is reported indignant at the impunity extended to the Fenians by our authorities; and to have entered decided remonstrances. That is natural enough. British officials are not slow in taking the hint when their own toes are trod upon, however careless they may be in treading upon the toes of other people. But these remonstrances have not, apparently, ruffled the composure of Mr. SEWARD. With his habitual stoicism, he seems to think "all is lovely."

Whether the Fenians have embarked simply in a fool-hardy project, or have at command resources of men and material adequate to a strong attempt is a problem time must decide. Conspirators more frequently start with the resolution of meeting the "chapter of accidents," hoping something will turn up in their favor, than with a reasonable computation of the difficulties to be encountered and the means on hand of surmounting them. This is inevitable from the nature of conspiracies. The actors have to go in and take the chances. Gen. PRIM, in Spain, furnishes a recent instance of this sort, ending in discomfiture.

The Fenian leaders, by their own public confessions, have felt they were shut up to the necessity of making an attempt at revolution, at all hazard. The other alternative was personal disgrace and universal obloquy.

We have not concealed our impression that against the power of the British government, all the resources of Fenianism would be found, not simply inadequate, but contemptible. We do not anticipate any other result now than that of a few hundred or thousand Irishmen, animated by traditional hatred of British rule, will manage to get themselves into an uncomfortable scrape.

SUPERINTENDENT OF COMMON SCHOOLS.

On the first Tuesday of May the School Directors of Allegheny county will be called upon to select a Superintendent of Common Schools to serve for three years. This is a matter of no small importance. Considering the number of children to be educated; the need there is of a careful and disinterested selection of teachers; and the necessity of securing a person, not only fully instructed himself in all the branches embraced in the Common School System, but endowed in addition with excellent administrative abilities; it is of much consequence that those upon whom the duty of selecting the Superintendent is devolved by the laws should make search for the best obtainable man to fill the position. We have no suggestion to make of names; but every parent who has a child to educate, has a stake in the matter. So every taxpayer ought to be interested to see that the money that he is annually called upon to contribute for educational purposes is so applied as to yield the largest advantages to the community. By all means gentlemen School Directors, give the matter full and careful consideration.

FREE RAILROADING.

Sundry Pittsburgh gentlemen, acting on a hint we gave them, have interrogated Mr. CLYMER, the Democratic candidate for Governor, as to his views and purposes in respect to a General Railroad Law. His answer is written, though not published, and commits him, in conformity with his course as Senator, to such a law.

Both candidates for Governor now stand publicly pledged to sustain the policy of allowing the making of as many railroads as capital can be provided for. So far, well.

There now remains another, and, as we judge, a yet more important step to be taken, for the consummation of the desired end. It is of little use to secure the election of a Governor, pledged to a particular system, unless members of the Senate and House of Representatives are secured who will fully co-operate with him. Wherein lies the chief difficulty in selecting the right stamp of men for these places? Business men, who are most deeply interested in the course of legislation, will not go to the primary meetings of their party. They allow the whole machinery of politics to fall out of their own hands, and, not unfrequently into wrong hands. The result is the best men are not selected for law-makers; and then the very persons, through whose remissness in attending to their duties of citizenship, the evil happens, are the first and loudest in complaints. Nor is this all. Business men, of unblemished integrity and intellectual ability, immersed in their own private pursuits, and eager in the chase either of social position or brilliant fortunes, too commonly refuse to become candidates for office. Either they feel they cannot afford the pecuniary sacrifice, or the necessity of going from home is not agreeable, or the duties are not congenial, and they must be excused. Hence, it often happens that the best men are not found in the right places. But, pray, who are under so large obligations to serve the public as they who have superior powers and deepest pecuniary stake in the proper framing of the laws? We do not hope to see a radical and wholesome reform in this particular; but, we insist, that men who constantly fail in their own duties in these important matters, are not those best entitled to sit as censors on the short-comings of their fellow-citizens.

Certain members of the late Legislature have had records on the whole subject of railroads. They either contributed to pack Committees for the purpose of strangling proper legislation, or dodged when divisions involving measures of serious moment were to be taken, or voted squarely on the wrong side. It will be safe to search out these men, expose them to their constituents, and prevent them from being again nominated and elected. Let this line of policy be rigidly pursued, without regard to persons, and next winter will witness the passage of a General Railroad Law.

NATIONAL PATRONAGE IN PENNSYLVANIA.

A Washington special to the Philadelphia *Press* reads as follows:

"A good deal of uneasiness is created by the rumor that a "slate" is being made out, containing the list of a number of removals of persons holding office under the General Government in Pennsylvania. Considering the congregation here of a number of seedy politicians—people who have not been able to secure consideration either from the people or from Mr. Lincoln, and who are very loud "Johnson men," and particularly abusive of the radicals—I should not be surprised if this rumor proved to be true. It is not doubted that the President yesterday peremptorily directed the appointment of ex Governor William F. Johnston, of Pittsburgh, to one of the internal revenue offices in Allegheny county. That dissatisfied, querulous, and uncertain politician, who has presented himself as a candidate for any number of positions during the last five years, and has failed in all, came on some days ago, and delivered himself of a violent Johnson speech from the steps of the City Hall, the supplement to which is the appointment aforesaid. The tremendous popular demonstrations against Johnson's policy, together with the successive and solid blows of the great majorities in Congress, do not seem to have made much impression upon his "Accidency;" at any rate, the hope of a continued rupture has brought here a perfect brood of dilapidated and worn-out changelings and parasites. They vividly recall the days of John Tyler, when all that was requisite to get a Federal office was to praise the President as the greatest patriot that ever lived, to endorse his policy, and to abuse the leading men in his own party. One would suppose that Pennsylvania had fallen back into the hands of the Calvin Blythes, James M. Porters, Joel B. Sutherlands and Ovid F. Johnsons, of immortal memory, for their counterparts are to be seen all around us, and they will no doubt be duly provided for. If Congress were not now in session you would see some appointments that would set the whole State in a grin. Johnson is a better type of the hungry men who are waiting to be rewarded for their abuse of the radicals, and the strong desire to have the traitors in Congress."

CONCILIATION.

The New York *Times* earnestly urges the importance of harmony between the President and Congress. This is very well. Co-operation and mutual confidence between the executive and legislative branches of the government, is of prime consequence. Wherein our cotemporary fails is in urging Congress to recede instead of the President, or in not pointing out some satisfactory middle ground on which both can meet without a sense of personal humiliation. If Mr. JOHNSON would really indicate a disposition to harmonize, on any just and reasonable basis, Congress would be constrained by public opinion, and, we think, by its own desire, to act in concert with him.

On the last day of the session at Harrisburg, Mr. NEGLEY offered the following resolution, hoping to bring it to a vote:

"*Resolved*, That in the passage of the Civil Rights bill by both branches of Congress, by a two-thirds vote, and notwithstanding the objections of the President, we recognize a triumph of the people, of right and justice, and we hail it as an evidence that the just result of the late war will be realized to all the people of all the States."

Objection being made from the Democratic side, it went over, and, in the press of business, was not reached.

AN EXPLANATION.—Owing to somewhat of a similarity in the names of SAWYER and SCHOYER, an impression prevails to some extent that S. SCHOYER, Jr., Esq., is the gentleman who has been figuring in Washington City, as a supporter of the policy of the President, with reference to the questions upon which the President and Congress differ.

We take this method of correcting the impression in justice both to Mr. N. P. SAWYER and Mr. S. SCHOYER. The latter is a firm supporter of the policy of Congress.

THE LAST OF A LANDGRAVATE.—By the death of Prince Ferdinand Henry Frederick, Landgrave of Hesse-Homburg for the past eighteen years, that little German principality, famous for its licensed gaming house, ingresses the Grand Duke Louis III, of Hesse, in default of a male heir. The new ruler proclaims himself from Darmstadt, under date of March 24. The addition to his revenue by this accession is about 700,000 florins per year, provided he confirms the holders of the gaming-houses, which have to pay twenty-five years to run. The respectable men of the inhabitants are greatly opposed to a law that these dens of vice will now be broken up, but it is doubtful whether Duke Louis will throw away so large a share of the profits enjoyed by his predecessor.

GENERAL NEWS.

It was stated a few days since that the passage of the Civil Rights Bill, over the President's veto, was the second occurrence of this kind in the history of the Republic, the first being Mr. Tyler's veto of the revenue cutters bill. Subsequent investigation has determined the fact that four measures were passed over Mr. Pierce's veto in the first session of the 31st Congress, viz: The bills providing for the improvement of the Des Moines rapids in the Mississippi, for the removal of Pass a L'Outre, for the deepening of the channel in the Sault river, and for similar improvements in the St. Clair flats. The Civil Rights Bill was, therefore, the sixth that has become a law without the President's approval.

THE POLICY IN NORTH CAROLINA.—The Raleigh *Standard*, Gov. Holden's paper, says the President's policy in North Carolina is a complete failure; that ultra secessionists now fill every office in the State from the highest to the lowest, and that the secession leaders are determined that Union men shall never govern that State. It adds: "The cause of restoration has been arrested. The State has been set back to the point where it was at the commencement. No one can foresee the result. The generosity of the President has been abused, and the loyalty of these people has been neutralized by the love of money, and how long will it be before they are rebuked, as they should be, and made to know their places?"

ABOUT THE FENIANS.—The Government is not unmindful of the Fenian movements in this country, and especially in the northeast. We are not at liberty to suggest what course the authorities intend to pursue when the exigency shall arise, but we can say confidently that the Government will not permit any combination of men whatever to entangle the United States in unnecessary difficulties with friendly powers. President Roberts, of the Fenian Brotherhood, is in Washington. He is open in his condemnation of the movements on the northeastern frontier; as, according to his views, it will not aid the cause of Irish independence.—*N. Y. Tribune.*

A RAID was made on the jail in Pittsfield, Pike county, Ill., last week, by a number of men at midnight, scaling the walls and making a hole in the roof to let themselves in; then, breaking through another ceiling, they reached the upper tier of cells, where they inquired of the prisoners for a prisoner named Evans, under indictment for murder, but he had been taken away to Brown county. They were very angry at their failure to release him. They released and took away with them three other prisoners, and left for parts unknown without being discovered.

STEPHENS'S TESTIMONY.—Alexander H. Stephens completed his testimony before the Reconstruction Committee on Thursday. He thinks the people of the South have not yet been convinced that they had no right to secede, or that the war settled only that the North was powerful enough to prevent Secession. He himself always did, and does now, believe in the independent right of the States to secede. His testimony is very interesting and voluminous.

AN IMPORTANT BILL.—A bill has been framed, or is rather in course of framing, by the Judiciary Committee of the House, which will provide certain rules of conduct to be observed by the Clerk at the organization of the Fortieth Congress. The Clerk's duties, as all are aware, are pretty well defined in the Constitution, and if there is to be any change in the same, it should properly be offered as an amendment to that instrument.

A KENTUCKY LADY of high social position—loyal, but not "fanatical"—who has lived for two years past in New Orleans, writes to her friend in this city as follows: "The Southern people feel a great hatred to us Northern people. It is *not true* that they are getting reconciled to the new order of things. When the troops are withdrawn, I doubt if Northern men will be courageous enough to stay in New Orleans."

SENATOR COWAN, who boasts that he governs the executive patronage in Pennsylvania, is busily engaged in getting up a middle party in that State, the purpose of which is to effect the election of Gen. Geary, the Union nominee for Governor. The most prominent feature of the scheme is to turn radical men out of office and to supply their places with men who have served in the army.—*Chicago Trib.*

THE SOUTHERN INSPECTION.—The orders given by the President to Generals Steadman and Fullerton, include an inspection of the Freedmen's Bureau, its management and its usefulness, and its estimation by the Southern people. This is to be done outside of the Bureau, and without consultation with its chief officers. They will remain in the South several weeks.

POLITICAL QUIET.—There is an unusual lull in the political world, and members of Congress are becoming more frequent visitors to the White House. But it is morally certain that a large number of those Republicans who live in doubtful districts will have some trouble before the Fall canvass is gone through.

COL. JACQUESS, of the Gilmore-Jacquess Peace Mission to Richmond, the noted Illinois Methodist, who was arrested some time since on the charge of causing the death by an abortion of a woman he had seduced, and was released on bail, has given conclusive proof of his guilt by failing to appear for trial.

A RAILWAY company in France was lately compelled to pay two hundred dollars damage to a passenger for detention, the train being so behind time as to cause him to miss a connection which it was necessary he should make in order to complete a business transaction.

MR. SAULSBURY, of Delaware, presented to the Senate the painful alternative of believing either that the Civil Rights bill was unconstitutional, "or that some five-and-twenty years' diligent study of the law had availed him nothing."

VARIOUS ITEMS.

THE CONFEDERATE VICE PRESIDENT.—Alexandra H. Stephens, of Georgia is now in Washington, as oddly polite as ever. He compliacently denies that there can be such a thing as "citizens of the United States," and insists upon the inferiority of the negro and the necessity of keeping him in a subordinate position. Those who have conversed with Mr. Stephens say that he looks upon the condition of public affairs simply as a broil between politicians, and does not express the slightest sympathy with the moral or benevolent view of the question. And this is the best of the pro-slavery school.

SOLDIER REMOVED.—A fine young soldier who had fought gallantly through the war was this morning dismissed from the Quartermaster's departments for knocking down a fellow clerk, who called him a liar for saying that the Washington *Chronicle* was a more loyal paper than the *National Intelligencer*. The gentleman removed was Mr. Spear, brother of Major Percy B. Spear, United States commissary.

THE Nashville *Banner* of the 5th speaking of the extensive frauds on the Government recently discovered at that point, says: The investigation made in the case of Mr. Bruner reveals facts which led Gen. Johnson yesterday to order the arrest of some fifteen or twenty persons in Louisville, among whom is Mr. Henderson, one of the proprietors of the Louisville *Journal*.

AT AN auction sale in New York, on Thursday, a plot of ground fifty-nine feet front on Broadway, from one hundred fee, six inches to one hundred and forty-seven feet six inches in rear, with nine feet six inches on Annstreet, extending back ninety two feet, adjoining the new Herald building, was sold, after very lively competition, for three hundred and ten thousand dollars.

BRIBERY AT ELECTIONS.—The last foreign mail says than the investigations by the Election Committee of the House of Commons were bringing to light gross cases of bribery at the recent elections, and several members had in consequence, been unseated. The remedy proposed for this species of corruption is to increase the elective franchise.

THE ORIGIN of the great steamboat fire at St. Louis, last Saturday, has been traced to the cook-house of the steamer Nevada, where coal oil had been poured on a fire to hasten combustion. Some of the leading steamboat companies at St. Louis have discontinued the use of coal oil on their vessels, and returned to lard oil.

SOME.—Swindlers are advertising extensively a "European Pocket Timekeeper," sent by mail for the low price of one dollar. It is simply a pasteboard dial with a string pendulum, for telling time by the sun, could not cost over two cents, and would be dear at that price, as it is of no use at all.

IT WAS thought that perhaps a million, or eleven hundred thousand bales of cotton might be got out of the South as the remains of the crop of 1860, with the little left over from the scanty war crops thrown in. Instead of that, about two million bales have come forward.

THE Mobile *Times* publishes Longfellow's last poem, with the remark that the writer "has attained something of a reputation as a poet, and for that reason, and for the fact that the above is not the worst of his pieces, we reproduce it."

THE Williamsport *Bulletin* thinks that Mr. Clymer, the Copperhead candidate for Governor, has maintained a fair reputation as a private citizen, because he owed his early education in the Whig party.

WHENEVER [illegible] individual talks about measures before [illegible] as "Negro Equality Legislation," it [illegible] confession on his part that nothing but an act of Congress can raise him above the level of the negro.

IT IS said that a successor to Bishop Colens in the see of Natal has been selected, but several of the bishops differ from the primate and will refuse to recognise a second bishop in the same see.

Manufacture of Paper from Wood.

PHILADELPHIA, April 12.—A company of two hundred gentlemen, representing the newspaper and book publishers of New York, Boston and this city, paid a visit to the Manayunk Wood Paper Pulp Works, and witnessed the entire process of converting cord wood into paper pulp, and its manufacture into paper. The pulp works are very extensive, buildings and machinery having cost $500,000. The great feature of the works is the economy in the use of chemicals, which disintegrate the wood and bleach the pulp, the refuse being carried to the evaporating house, where the chemicals are rendered fit for using again—only 20 per cent. of fresh stock being added to make it equal to its former strength. At the adjoining Great Rock paper mills, excellent printing paper is made with 80 per cent. of wood pulp and 20 per cent. of straw pulp. From twelve to fifteen tons of wood pulp are turned out daily. The works have but recently gone into operation, and already the price of paper is reduced three cents per pound. This evening the company partook of a splendid entertainment at the Continental.

SPECIAL NOTICES.

☞ **AYER'S PILLS—Are you Sick,** feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the precursor to serious illness. Some ill of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Dr. Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are cured by the same means. None who know its virtues will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Rheumatism, Dropsy, Worms and Suppression, which in its large forms

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine ever made.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache*, and the various Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of Miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other chill remedies—that it leaves the complaint without injury to the patient. It contains no form of mineral or other deleterious substance, nor does it produce quinism or any other bad effect whatever. Shaking brothers of the army and the west, try it and your exertions will be crowned with success. Such assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by E. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh28:md&wF

☞ **RETROUVEY'S TURKISH**
JANDOLENIAN HAIR TONIC,
THE DRESSING AND RESTORER OF THE AGE:
TURKISH BANDOLENIAN.

RETROUVEY'S TURKISH BANDOLENIAN.—What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring it to its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion and keep it in place? This *Retrouvey's Turkish Bandolenian Hair Tonic* will do, and for proof we refer you to any person who has used it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, and in America every where the "Bandolenian" is known—it is pronounced the *ne plus ultra* of Hair Preparations. Remember, it is free from all mercurial poisons. They are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

SATURDAY, April 14, 1866.

The market has worked easier for borrowers throughout the week, though current rates are yet high. First class paper, and loans on government securities, pass at 8½@10 per cent, with a fair amount offering on second class paper, and loans on good collaterals, other than government bonds, rates vary from 10 to 12 per cent with a pretty fair demand. New York quotations to-day are as follows: Gold, 126¼ (a decline) 1881 Bonds, 104¾; United States Five Twenties, 103¾; Ten Forties, 913/8; Seven Thirties, 105¾—a decline in every case save in the last named. Pittsburgh market from ¼ to ½ above or below as between buying and selling rates.

The local stock market has been quiet—stocks changing hands but slowly. In bank shares we may quote as follows, though we have but few sales from which to draw our figures: Bank of Pittsburgh, 66@67—no reported sales. Exchange Bank, 86@90½—offered at latter figure. M. & M. National, 61 bid, 65 asked—no sales. Iron City, none offering. Mechanics Bank, Allegheny Bank, do Bank of Commerce, 106@108. Peoples National, 109@110. Third National, no bids reported, and same of Second National. Citizens 60@62.

Insurance stocks heavy. The unfortunate disasters on the river, have told heavily against insurance stocks. Two or three years of fortune, fed our insurance offices to covet river business to the exclusion of land risks. We doubt if the experience of twenty years carefully collated will bear them out in their choice. Since the general introduction of carbon oil, and the loose manner or carriage of it in both its crude and refined state, the percentage of risk has greatly increased. The same remark applys equally to land storage, but this risk has been more nearly met by increase of premiums. Railroad shares inactive—Allegheny Valley Railroad, 6 bid, 8 asked; Connellsville, 9¾ bid 10 asked. We have no change to note in gas or Bridge stocks—these but rarely come upon the market, and when they do, sell at full quotations.

The Titusville *Herald* is informed by a gentleman at Meadville, that the Crawford County Bank had at the time of suspension an outstanding circulation of $238,000, which has been redeemed by exchanges to about $200,000—it is stated that if the bank lose all they had with Culver, Penn & Co., they will need to raise but $75,000 to redeem all their circulation and pay all their depositors. We would advise owners of Crawford county bills not to sacrifice. We are informed that the depositors are being paid off to-day.

—The Oil City *Register* gives the quarterly statement of the First National Bank, Oil City, in full. The report gives ample evidence of the admirable management of the institution. The stock is owned chiefly by our citizens, and we feel a great degree of pride in its success. The First National is the only one of the few banks in this locality with which Mr. Culver ever had any connection that did not suffer by his failure. We find by looking over the statement, that he does not owe the bank anything, nor is he in any manner connected with it. The First National we consider as sound as any bank in the country.

—The Baltimore and Ohio Railroad Company has declared a dividend of 4 per cent on the stock of the Main stem, payable on after the 30th inst. Also, a dividend of 5 per cent on the stock of the Washington branch for the half year ending 31st March last, payable on and after the 16th inst. United States tax paid by the company.

—The Ironton (Ohio) *Register* says of the iron trade:

No transactions have occured from which we can ascertain the actual price of pig iron. It may still be quoted at $53@55 for No. 1, and $47@50 for No. 2, though there have been some light sales for local manufacturing purposes at slightly lower rates. There being no hopes of a resumption of operations by the Western foundries, the prospects of a demand for pig are rather gloomy.

Dullness in bar iron continues, but prices are unchanged. The two rolling mills, however, are running their full force. Activity in nails remains unabated. The Belfont Iron Works are constantly making heavy shipments. The Ironton Foundry is still idle, and the indications are that it will remain so for some time.

—The New York *Tribune*, of April 11, says:

The Secretary of the Treasury has the loan bill signed, and at no remote day will be at work under it, and give more firmness to the money market. Prudent people show no disposition to make new engagements until the Secretary's policy is known. That he will have a settled policy is now to be expected from the tenor of the bill, or from his antecedents. In the future, as in the past, he will move secretly, in any direction, for the interest of the department, and the money market will be kept in a condition fatal to gamblers, whether in stocks or commodities. He will pursue a policy which will make money on coal abundant at low rates, and ordinary commercial paper command prices equal to those paid for the last six months. This course will make compound notes, seven Thirties, and all short government paper the most desirable security in which to employ capital until the government funds its currency debt and withdraws from the market as a borrower in any form.

Finance and Trade in New York.

MONEY AND STOCKS.

NEW YORK, April 13.—Gold declined to 125¾, and closed at 126⅜. The exports of specie to-day were $50,000. Government stocks are firm. Money is easy. Foreign Exchange closes with an active demand at 109⅝@108.

Stocks firm. U. S. 5-20 coupons of '62, 104; do of '64, 104½; do '65, 104¾; 7-30s second series, 104⅝; do third, 104⅞; Missouri 6s, 78½; Ohio and Mississippi Certificates, 29¼; New York Central, 92⅝; Erie, 72½; Hudson, 108½; Reading, 104¾; North Western, preferred, 55½; Rock Island, 93. The stock market is unsettled.

At 4 o'clock p. m., open board, the following were the principal sales: Canton, 32½; Quicksilver, 52½; Erie, 70½; Michigan Southern, 79½; Cleveland and Pittsburgh, 79½; Cleveland and Toledo, 103½; Chicago and Rock Island, 119½; Chicago and North Western, 26½; do preferred, 55¾.

Business at the office of the Assistant Treasurer, to-day, was as follows: Total receipts, $315,936,28, of which $7,000 were for customs; and on account of loan, $7,000; old notes, $1,152,000; payments, $113,675,20; balance, $36,325,085.40

DRY GOODS MARKET.

The dry goods trade to-day is very quiet and without much change in prices of domestic goods, a commission trade made on woolen goods, both foreign and domestic. There are many trashy styles of foreign dress goods on the market, and it is difficult to dispose of them. Really good and choice styles of such goods are selling freely at good prices. There probably has never been a season when Alpacas were in such demand. Plain blacks and fancy colors bring good prices if the quality is right. Very fine black alapacas are taking the place of black silks, which are dull. Good styles of fancy cassimeres are selling well, such goods as are suitable for the city tailoring trade. The clothing trade of this city is fair, and many houses are doing a good business. The auction houses are still hammering away, which tends very much to depress the trade and keep the dry goods market unsettled. Prints—Allen, 18; American, 18½; Amoskeag, 17; Arnold, 16; Cocheco, 21; Dunnell, 18; Freeman, 15; Hamilton, 19; London Mourning, 16½; Merrimack, 22½; do, 22½; Pacific, 19; Richmond, 19; Victory, 16; Wamsutta, 14½; Garner 19½; Delaines—Armures, 23½; Hamilton, 23½; Pacific, 22½; Brown Drills 25; Stark, 22; D D Wallace, 21; Lawright Brown, 30; do, 33; Boston Brown, 30; do. 32½; Amoskeag, 30; Hamilton, 40; Manchester, 37½; Massachusetts, 25; New York, 46; Pearl River, 50; Warren Brown, 35; Wide Worsted, 55; York, 50. Review of the New York Grocery Market

(From the Commercial List, April 14.)

Coffee—The market remains very quiet, but may be called steady at previous rates. The sales are 350 bags Rio, per Rukan, at 19½c; 165 do choice, per Ida, 19¾c; 165 do per Haydn and Dannebrog, 14½@15; 800 St. Domingo, in Boston, fgr c, export hence, 12½; all gold, in bond; 25 Porto Rico, 20; 34 Maracaibo, 23 gold, duty paid; 100 Java, within our range; and 204 bales Mexican, on terms not made public.

Sugar—There is a steady good inquiry for raw for home use, and the business from day to day is to a fair extent, the market closing yesterday with a much stronger tone than before, amounting in some instances to an advance of one-eighth of a cent per pound—we have adjusted our notations accordingly. By auction, 25 hhds new crop Porto Rico sold at 11@11⅝c, and 15 do New Orleans, 13c, cash. The stock yesterday was about 24,091 hhds, 51,165 boxes, 119,620 bags sugar, and 335 hhds Melado.

Spices—There is only a moderate inquiry for home use, and the market is dull; we notice sales of 1000 bags Pimento at 5¾ cents gold, in bond, 1000 piculs Cassia, just received, before arrival, on terms not made public; 25 bags Pepper, 33½ cents, 100 Cloves, 28; 10 cases No. 1 Nutmegs, 90 gold, &c.

Rice—There is a steady good inquiry for home use, and the market is firm at full previous prices. We notice about 2000 bags Rangoon, in bond, at $5,87½@6,25 gold.

Baltimore Coffee Market.

BALTIMORE, April 13.—The absence of arrivals and reduced stock, particularly of prime and choice Rio, which is principally wanted, has caused a quiet market. We report sales for the week as follows: 500 bags good Rio, ex-bark Winifred, at 18c, gold, in bond; and about 500 bags good to choice do, in lots, at 18½@21¾c; also 100 bags Java on private terms. We quote prices at the close, per lb: Good Rio 18¾@19c, prime do 20@20½c, choice do 20¾@21¼ cents; Laguayra 20¼@20¾c, Java 27½@28c, gold.

California Mining Stocks.

SAN FRCISCO, April 14.—Mining stocks firm; Ophir 85; Savage 10,95 Belcher 300; Yellow Jacket 536; Chollar Potosi 255; Crown Point 138; Legal Tenders 97. The New Almaden Quicksilver Company has on hand thirty-four thousand flasks of quicksilver; enough to supply the world for several days.

PITTSBURGH MARKETS

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, April 14, 1866.

The produce markets have been moderately active during the week which has just closed, but as the demand, generally, is restricted mainly to supplying the immediate wants of the retail trade, we have had few round lot operations to record. The only prominent feature we have to notice, is an advance of about 25 cents per barrel on Flour, as other articles have undergone but little change in value.

ASHES—There is a continued good good demand for Pearls, and the price is well sustained. Sale of 4 tons Pearls at 12; 15 tons common Soda Ash at 3½, and 10 tons Refined do at 7.

GRAIN—Wheat is firm but unchanged and quiet. Sale of 90 bush prime White at $2,20. Oats firm, and held at an advance—60@70, to the trade, and 55@65, in a retail way. Corn is quiet but steady, with small sales from store at 68@75. Barley is firm, and held at an advance.

FLOUR—There is a slight improvement in the demand, and we can report regular sales from store at $8,25@8¾ for Spring Wheat, and $10,50@10,75 for Winter Wheat brands. The demand for this commodity is usually more active when prices are tending upward. Rye Flour is selling in small lots at $6¼@6¾ per bbl, and dull.

PROVISIONS—Bacon is quiet but steady, with a fair jobbing demand at 13 for Shoulders; 15@15¾ for Ribbed Sides, and 20@21 for Sugar Cured Hams. Lard is dull but firm at 18@18½ for prime kettle rendered. Mess Pork dull, and entirely nominal.

POTATOES—Demand continues fair, but the arrivals continue liberal, while, as yet, prices remain unchanged—ranging from $1,30 to $1,35 per bushel, and $3,75@4 per bbl. Sale of 2 cars in bulk, on track, at $1,25.

BUTTER—Is steady but unchanged; we continue to quote at 45@55, for common to choice Roll—mostly at 48@50.

EGGS—Firm and in demand but irregular, ranging from 25@28 per dozen.

SEEDS—Flaxseed is in demand and scarce at 2¾. Cloverseed is quiet—small sales at 9½. Timothy is held at an advance.

HAY—Sale of 65 bales, on wharf, at $19@20 per ton. Loose Hay is selling from scales at $20 to $25, as to quality.

DRIED FRUIT—Peaches in fair demand and steady, with sales at 17 to 22, for quarters and halves. Apples quoted at 13 to 15.

GREEN APPLES—Scarce and selling readily at $7 to $8 per bbl, as to quality.

CHEESE—Goshen Cheese is firm at 25. Hamburg is selling at 22.

ONIONS—Quiet but steady with regular sales from store at $1 per bush for prime.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, April 14, 1866.

CRUDE—The market for Crude was remarkably brisk to-day, the transactions, both on the spot as well as to arrive, being large, and while there is no quotable advance in prices, there was more inquiry, and, consequently, a firmer feeling on the part of holders. Sale of 1000 bbls, on the spot, at 13, bbls returned; 1250 bbls, to be delivered within the next thirty days, at 13; 2000 bbls (47 gravity) to be delivered within the next sixty days, at 13½; 3000 bbls, on the spot, at 13; 175 bbls at 13; 2000 bbls (40 to 43 gravity) to be delivered between the 15th and 30th of June, at 14½, and it was reported that there was a sale of 5000 bbls, to arrive, at 12¾, the buyers advancing ½000 on each thousand barrels or oil. The improvement in the demand may be attributed to the fact that the river is getting low, and once the steamers are compelled to lie up, the receipts of oil will begin to fall off.

REFINED—There is also an improved demand for bonded oil, and while the market may be termed firmer, there is, as yet, no decided change in prices. We can report sales of 500 bbls for May, buyers option, at 25, free on board cars here; 1000 for June, same option, at 26; and 1000 for August, at 45, delivered in Philadelphia. Free Oil is dull and entirely nominal, the demand being restricted entirely to supply the wants of the trade.

ARRIVALS—The arrivals of oil by the Allegheny river, since our last report, were as follows:

H. McKelvy	95	Weaver & Adams	20
Fawcett & Bro	279	John Benn	246
J. Baxter	380	J. Gallagher	126
Jas. Wilkins	386	J. E. Strickler	720

Cincinnati Market.

CINCINNATI, April 14.—Flour firmer and in good demand, at $7@7,25 for Superfine; $8@8,25 for Extra, and Family $9,25@10. Wheat offering sparingly, and nearly for No. 1 Red at $2,05@2,10; No. 2 do. $1,70@1,75; Old $2,25@2,45. Corn and Oats unchanged and steady. Rye in good demand, and prices higher; No. 1, 68@70c; Extra, 75@75c. Barley in good demand, at $1@1,10 for prime to choice fall, and $1,25 for Canadian. Whisky dull and prices nominally unchanged. Mess Pork in active demand, at $25@25,25, but is held at $25,50, and not freely offered at this rate. Lard advanced to 18c, and 1,500 tierces sold at this rate, but at the close there were no sellers below 18½c. Bulk Meats & Bacon unchanged and quiet, but held firmly. Clover Seed a shade lower, at $5,80@5,90. Flax steady, at $2,25. Linseed Oil in better demand at $1,25, but holders ask $1,40. Groceries unchanged and good business doing in dry goods; prices steady. Gold closed at $1,25½@1,25¾; buying exchange scarce; money market moderately easy at 8@10 per cent.

New York Market.

NEW YORK, April 14.—Coton without decided change, at 37½@38c for Middling. Flour 10@15c better, with a fair demand at $7,40@7,75 for Extra State, $8,45@8,75 for Extra R. H. O., and $8,90@1,30 for Trade Brands. Whisky steady at $2,25@2,27 for State and Western, and $2,26 for Refined. Wheat 1@2c better; Milwaukee Club, $1,70@1,71 for New, No 1 Milwaukee, $2,40 for Old Amber Indiana. Corn without decided change. Oats quite active for export and a shade firmer, at 40@48c for New Western, and 57@58c for Old do. Petroleum dull at 24c for Crude, and 37½@38c for Refined in Bond. Pork opened heavy, but closed firm at $25,50@25,62½ for New Mess, closing at $25,62½, regular, and $25,00@25,25 for Old do, and $27,25@27,50 for Prime; also 5,250 bbls New Mess for May and July, sellers' option, at $25,50@25,75. Beef steady at about previous prices. Beef Hams unchanged. Cut Meats quiet. Bacon quiet. Lard firm at 16¼@18¾c. Money quiet and easy at 6@6 per cent. Sterling steady.

Baltimore Cattle Market.

BALTIMORE, April 12.—Beef Cattle—The offerings during the past week were 1225 head, against 713 head previous week. Owing to a limited supply in the early part of the week, prices advanced somewhat, and some very fine cattle brought as high as $8,90@9. To-day, however, the butchers held off, and prices declined as much as ½c per lb on last week's rates, with a very dull market. Prices ranged as follows: Scalawags and old cows at 4@5, common to fair 6@6,50, fair 6¾@7,50, and a few good to prime Beeves at $7,50 per 100 lbs.

Sheep—The supply this week has been very large, there being 3000 head on hand to-day, and prices fell off ½c from the rates of last week. Sales were made at 5½@6¼c for clipped, and 6¼@7½ cents per lb gross, for wool sheep.

Hogs—The supply has been plentiful this week, and the demand moderate. Sales were made at $12,50@13,50, and a few choice lots at ¼14 per 100 lbs net.

Philadelphia Iron Market.

PHILADELPHIA, April 14.—Pig metal continues very dull, and prices are unsettled and drooping. Small sales are reported at 46@51 for No. 1 anthracite; 37@38 for No. 2, and 32@35 per ton for forge. In scotch Pig there is nothing doing. Manufactured iron continues very quiet, and we hear of no sales worthy of notice.

New Orleans Market.

NEW ORLEANS, April 14.—Cotton irregular; sales 1,000 bales; Receipts to-day, 2,370. Sugar, Flour, Oats, Pork, Bacon, Hay and Tobacco unchanged. Corn 90@96c. Sterling 33½; Francs 425. Gold 125¾.

St. Louis Market.

ST. LOUIS, April 14.—Flour and Wheat unchanged. Corn advanced 3@5c, at 63@75. Oats firmer at 42@43c. Provisions and Whisky unchanged.

RIVER NEWS.

ARRIVALS.

Bayard.....Moore.....Parkersburg.
Emma Graham.....Stull.....Zanesville.

DEPARTURES.

Grey Eagle.....Gordon.....Parkersburg.
Julia No. 2.....Coulson.....Zanesville.

RIVER, WEATHER, ETC.

The river continues to recede steadily at this point, with seven feet in the channel by the pier marks last evening. We had quite a thunder storm on Saturday evening, accompanied with heavy showers of rain, and yesterday was cloudy and warm, with every appearance in the afternoon of more rain.

At the wharf business continues about as dull as ever, and the prospects at present for any immediate improvement, are by no means encouraging. Tonnage is plenty and freight scarce, and steamboat matters generally look discouraging.

The Bayard, from Parkersburg, is the only arrival from below. The Emma Graham, from Zanesville, was due last night, and will doubtless be found in port this morning. The Nora, from Cincinnati, ought to reach here about Wednesday. The Delaware, Capt. R. W Harton, is filling up for the Upper Mississippi, and will soon be ready to take her departure.

The Importer, Capt. Noss, will be ready to leave for St. Louis on Tuesday, and passengers and shippers should bear this fact in mind. Being a new boat, she has excellent accommodations for passengers.

The Glasgow, Capt. Johnston, is next on the list for Cincinnati and Louisville. She will be ready to leave very soon.

The Kate Robinson, Capt. Robinson, will be ready to take her departure for the Missouri River tomorrow. She will be followed by the Nile, Capt. W. B. Haslett.

We would call the attention of steamboat clerks to the regulations of the Post office Department, requiring all letters carried outside of the U. S. mails to be inclosed in stamped envelopes. The penalty for each violation of this rule is a fine of $100.

The St. Louis *Republican*, of Friday, says:

The new Northern Line packet Minnesota made her first appearance yesterday. We have heretofore published full accounts taken from Pittsburgh papers, and must say that she exceeds every word that has been said in her praise. She is under the command of Captain J. B. Hill, with Charley Carroll in the office.

Six steamboats "laid up" at Shreveport on account of the dull time.

It is reported that the J. R. Hove, a government boat, was seized up Red river last week by some people incensed by cotton stealing, and the boat burned, and the cotton agent killed.

We take the following river items from the Cincinnati *Commercial*, of Saturday:

The New York left for St. Louis last night. The Lawrence leaves for the same port on Tuesday, and will be followed by the Nightingale and Bertha; the boats named having agreed to load and leave "in turn" hereafter.....Capt. W. S. Evans, and the balance of the crew of the Nevada, recently burned at St. Louis, passed through this city yesterday, on route for Pittsburgh. Capt. Jas. Mellon, the clerk of the Nevada, goes to the mountains on the Upper Missouri River packet Luella. Capt. J. M. Andrews is in the city, prospecting. Andrews is always ready for business.....We had the pleasure yesterday, of meeting with Captain Jesse T. Hinds. He is improving slowly from the injuries he received by the explosion of the Missouri, and was among the Telegraph's passengers for Portsmouth last night. Captain Hinds will take charge of the A. & M. S. S. Co's. steamer Mollie Able, as soon as she receives her battery of double flue boilers at St. Louis. The Mollie Able will be ready for business in two weeks.....Capt. Evans informs us the report of the fire on the Nevada, did not orginate in the cooking stove as reported in so. Louis, but away aft in the deck room. He says the story about the cook kindling a fire with coal oil is altogether a mistake.....The Rover passed down from Pittsburgh for St. Louis last evening, with four or five barges of iron and coal in two.....The tow-boat Hercules also came in from Pittsburgh last evening, with only one barge of coal in tow, and her starboard engine broken.
